

Hektor

Playful modular seating system

Design: Lauri Visnapuu

Designed for dynamic public and shared spaces, Hektor is a modular seating system built around soft, hexagonal forms that invite movement, interaction and flexible use. The playful geometry allows organic, non-linear configurations that work equally well as flowing seating landscapes or as individual standalone seats.

Available in three module heights — from low poufs to higher-backed elements — Hektor enables zoning, visual variation and optional privacy within open environments. Its generously upholstered, soft construction makes it comfortable for extended waiting, informal meetings or relaxed social moments.

Welcome Zone

Social Zone

Zone space with soft forms

Create organic seating layouts

Support comfort and interaction

PRODUCT INFORMATION

Versions

Available in 3 heights

Modularity

Modules can be connected together

Warranty

5 years

Sustainability
