Leaning wall

Design: Karl Kukk

Sometimes, there's not enough space for a comfortable sofa, but you still want to make waiting comfortable. The day is saved by the soft leaning wall Hover, which you can lean on to pass the time alone or chatting with a companion.

Hover is brilliantly space-saving and fits perfectly in places where you might need to stand, such as at the airport, in a corridor, or behind a meeting room door. Placed in the office kitchen or in an

in-between space, it provides a convenient spot for exchanging ideas with a colleague on the go. Hover is available as a module in four different sizes. By adding a coffee table and a power socket, you can even get work done while leaning. Quickly installable and featuring easily replaceable fabric, Hover also offers noise-dampening properties thanks to its foam and perforated inner panel. Hover is designed for disassembly fully embracing the principles of circular design.
