ENVIRONMENT MATTERS

At Intuit by Softrend, we understand that environments matter. Whether it's in the office or public spaces like educational facilities, libraries, cafeterias or public waiting areas, our furniture designs are crafted not only to fill spaces but to transform them. We believe in creating settings that nurture creativity, foster collaboration, and enhance productivity, making every space intuitive and lively. Each of Intuit's furniture pieces is designed with the goal of making spaces more adaptable, functional, and appealing. At Intuit by Softrend, we're committed to redefining how furniture interacts with spaces and its users.

GOOD FOOD - GOOD MOOD

INTUITIVE FURNISHING FOR GETTING THINGS DONE

Our way of working has changed. It's the creative problem solving, agile collaboration, and the feeling of community we search for in the office. Intuit's designs have evolved to meet this shift.

We've taken the spirit of the breakout space and divided it into 4 distinctive work zones — each designed to meet a particular need to encourage creativity and connection.

Our 4 Zones use modular and multi-functional furniture solutions to make the most of every area of the office. Providing alternate spaces to choose where to work within the office drives a more effective workspace, a better work experience, and better individual performance. A win-win!

The world is moving fast — with Intuit, you make sure office space can keep up.

INTUITIVE OFFICE

INSPIRING LEARNING SPACES

At Intuit, we understand that effective learning environments extend beyond the traditional classroom setup of desks and chairs. Our vision is to create versatile spaces that cater to every aspect of the educational journey — from quiet study areas equipped with screens to dynamic group workspaces and comfortable lounges for relaxation and social interaction.

Our range of school furniture is designed to enrich learning experiences across all educational stages, from kindergartens to universities. We prioritize well-being for users of all ages and sizes, ensuring our furniture combines timeless design with functionality. Built to last, our pieces boast durable structures and are easy to maintain, making them a smart investment for long-lasting learning environments.

TRANSFORMING THE WORKPLACE CAFÉ INTO A DYNAMIC HUB

At Intuit, we believe a contemporary workplace café does more than just serve food; it enriches the entire workplace experience. Far from being just a corporate eatery, it's a dynamic, multifunctional hub where employees can dine, meet, work, network, socialize, and reenergize. By activating underutilized spaces throughout the working day, it plays a crucial role in fostering employee productivity and well-being.

ELEVATING THE LIBRARY SPACE

In the heart of every library, from the quiet corners of reading nooks to the collaborative buzz of communal spaces, the right seating can transform the experience. Intuit's range of library seating furniture is designed to meet every need— whether it's for individual study, group projects, or leisurely reading.

At Intuit, we believe in the power of timeless design, durability, and ease of maintenance to create inviting, long-lasting reading and learning environments. Discover seating solutions that cater to the diverse requirements of modern libraries, ensuring every visitor finds their perfect spot.

ENHANCING TRANSIT SPACES INTO WELCOMING HUBS

The quality of waiting areas, whether in airports, hospital lobbies, conference centers, or large office buildings, significantly impacts user experience. Our approach to designing for these spaces centers on transforming mere transit areas into inviting hubs that offer comfort and function while waiting.

Inuit's public space collection is crafted to elevate waiting areas into more than just pass-through spaces; they become places where visitors can relax in comfort, catch up on work, or enjoy a peaceful moment away from the hustle and bustle. With Intuit's furniture, waiting becomes an experience in itself, characterized by style, comfort, and utility.

FROM TRADITION TO INNOVATION: THE INTUIT STORY

Rooted in Craftsmanship

Intuit by Softrend carries forward a legacy of over 25 years in the furniture industry, grounded in three generations of craftsmanship. Born from the established residential furniture brand Softrend, our journey began in a modest factory in Vääna, Estonia, where every sofa and bed is still handcrafted with precision. By managing every step of the production process, from meticulous quality control to extensive customization options, we uphold the highest standards. Our management system's adherence to ISO 9001:2015 and 14001:2015 reflects our commitment to consistent quality and environmental management.

Innovating for Tomorrow

With a foundation deeply rooted in Softrend's extensive experience, Intuit by Softrend was launched in 2016 to revolutionize the public space furniture sector. We infuse a spirit of curiosity and innovation into Softrend's traditional expertise, creating functional, sustainable, and stylish furniture.

Sustainability at the Core

At Intuit, sustainability isn't just a policy; it's a promise to our customers and the planet. We carefully select recyclable materials free from harmful chemicals, focusing on durable design to prolong the life of our products and lessen our environmental impact. Our design philosophy emphasizes product longevity, recyclability, and resource efficiency, ensuring that each piece not only serves its purpose but also contributes positively to the environment.

Quality and Value

Our mission is to offer high-quality, durable designer furniture at fair prices, ensuring that while our prices are competitive, the quality and craftsmanship remain uncompromised. We believe that a quality product not only lasts longer but also provides greater value over time.

Vision for the Future

Intuit is driven by a vision to enhance the daily lives of millions by creating the world's most inspiring and comfortable environments. Whether it's transforming offices into collaborative spaces or furnishing public areas like airports and hospitals, our goal is to make every environment a place where it's good to be. Our products are designed to nurture creativity, foster collaboration, and enhance productivity, ensuring that every space we touch is intuitive and vibrant.

THREE GENERATIONS
OF FURNITURE-
MAKING TRADITIONS
SINCE 1997

INTUIT BY SOFTREND AND SUSTAINABILITY

A growing number of informed consumers seek to make sustainable choices – but they can only do so if manufacturers make them possible. That's why Intuit by Softrend is steadfastly committed to sustainability, believing it's the only way to remain a responsible furniture manufacturer.

We recognize that the furniture industry has a significant environmental footprint. That's why we're taking action to reduce ours across the entire lifecycle of Softrend Group's products.

- 1** Reducing environmental impact by prioritizing chemical-free and recyclable materials.
- 2** Enhancing recyclability by considering the reuse of materials and components from the design phase.
- 3** Extending product lifespans and minimizing the need for replacement by designing durable, repairable products.
- 4** Lowering our ecological footprint through optimized storage, transport, resource efficiency, and weight reduction.

PRIORITIES OF SOFTREND'S SUSTAINABILITY STRATEGY

Softrend's vision of sustainability relies on three principles, originating from **United Nations' Sustainable Development Goals**.

Environment • Climate change • Circular economy 7 AFFORDABLE AND CLEAN ENERGY  9 INDUSTRY, INNOVATION AND INFRASTRUCTURE  12 RESPONSIBLE CONSUMPTION AND PRODUCTION  13 CLIMATE ACTION  15 LIFE ON LAND 
--

ALREADY PART OF OUR DAILY PRACTICES

Made to order

We prevent excess stock by producing only what is needed.

Circular product design

We design all new products for longevity. Easy to disassemble, they can be repaired, refreshed, and ultimately recycled.

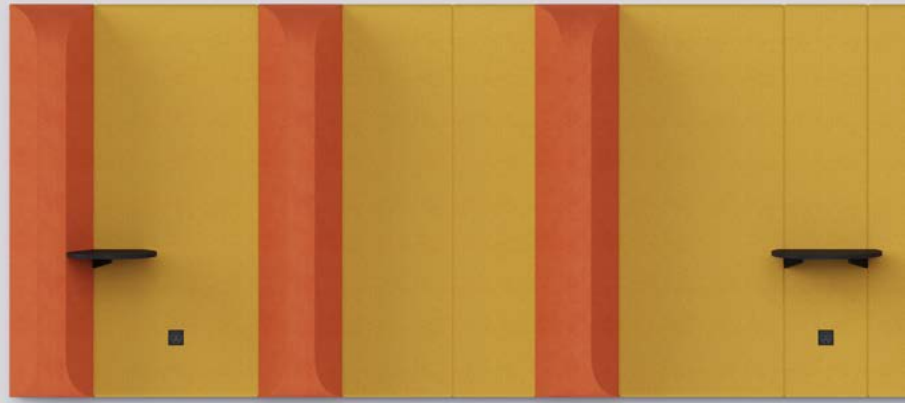

Smart material choices

We encourage our customers to choose durable materials by offering them as standard. More and more are also recyclable.

Minimizing waste

Following ISO 1400:2015, we reduce waste, reuse what we can, and pass the rest to our partners.

A great example of circular design is the Hover soft leaning wall – its top layers slide easily together and apart, making it simple to replace worn components.

WHERE ARE WE GOING?

More eco-labelled products

Building on the success of the Meeter series, which already carries the EU Ecolabel, we plan to certify at least ten more products or product lines by the end of 2026.

Improved recycling

We will increase the use of renewable and recycled materials in our products.

Circular economy products

All future products will follow circular design principles, and we will update most existing designs accordingly.

More sustainable packaging

We will prioritize recyclable transport packaging and reduce plastic use.

Enhanced governance & business ethics

We ensure a safe, supporting work environment while maintaining ethical and transparent business practices.

MEETER – INTUIT'S
FIRST EU ECOLABELLED
PRODUCT SERIES

EU ECOLABEL AND OUR PRODUCTS

The EU Ecolabel guarantees that a product is made in an environmentally and health-friendly way, has a long lifespan, and can be safely recycled. We are applying for Ecolabels for our products to help customers make more sustainable choices.

Environment

The raw wood, cork, bamboo, or rattan used in Ecolabelled products comes from sustainably managed forests.

Health

Ecolabelled furniture is produced without the use of hazardous chemicals, ensuring safety for everyone who comes into contact with it – both during production and use.

Warranty

Ecolabelled products come with a long manufacturer's guarantee, reflecting their high quality and exceptional durability.

Sustainability

Ecolabelled furniture is easy to dismantle, repair, and refresh – for example, by replacing the fabric and foam. This process further extends the product's lifespan.

Ecolabelled fabrics

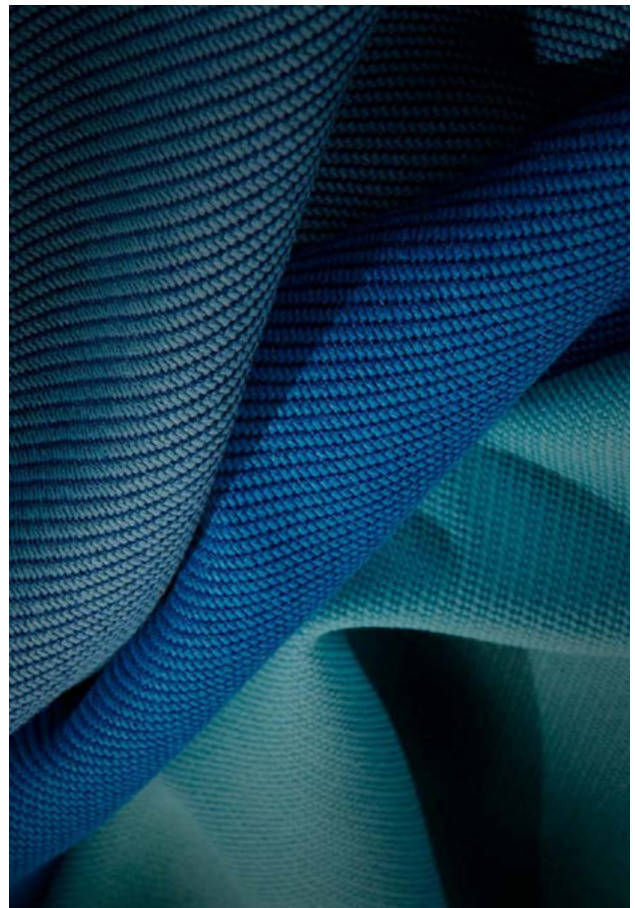

Intuit offers a range of around 1,500 fabrics, over half of them carry the Ecolabel. These 724 fabrics, each with distinctive looks and versatile characteristics, come from various manufacturers and are divided into multiple price categories.

FSC certified wood

We already use 90% FSC-certified wood in the production of Intuit's products. This certification ensures that the wood is produced with equal regard for both the environment and economic viability.

Camira Oceanic fabric range is crafted from 100% recycled polyester and plastic sourced from marine debris.

SOUND-ABSORBING FURNITURE

Public space and open offices often have problems with resonance, meaning that sounds reverberate for too long. Sound waves cannot move freely in a closed room and bounce off the structure of the room. Some of the sound is absorbed by surfaces, while some reflects from them.

Monitoring sound absorption and achieving the recommended reverberation duration is one of the principal tasks in the acoustic design of rooms. Acoustic absorption means that sound does not reflect off a material after reaching it. That is also the principle of designing furniture with acoustic properties: furniture has to absorb the sound that would otherwise reflect back and contribute to unwelcome noise.

Creating a more pleasant environment requires us to dampen all kinds of different sounds, such as fans, people's footsteps, conversations and phone calls.

Acoustic August

The entire August series is designed to improve office acoustics which makes it a perfect choice for an intuitive workplace. August product series gives you more absorption area in the room, e.g. better sound and less reverberance. A less reverberant room gives you better speech quality and less noise in the work environment.

The August products are rated at the highest Class A for sound attenuation. This means that they offer noise reduction equivalent to covering additional square meters of a room with 100% sound-absorbing material. The specific amount of square meters covered depends on the surface area of the chosen August model.

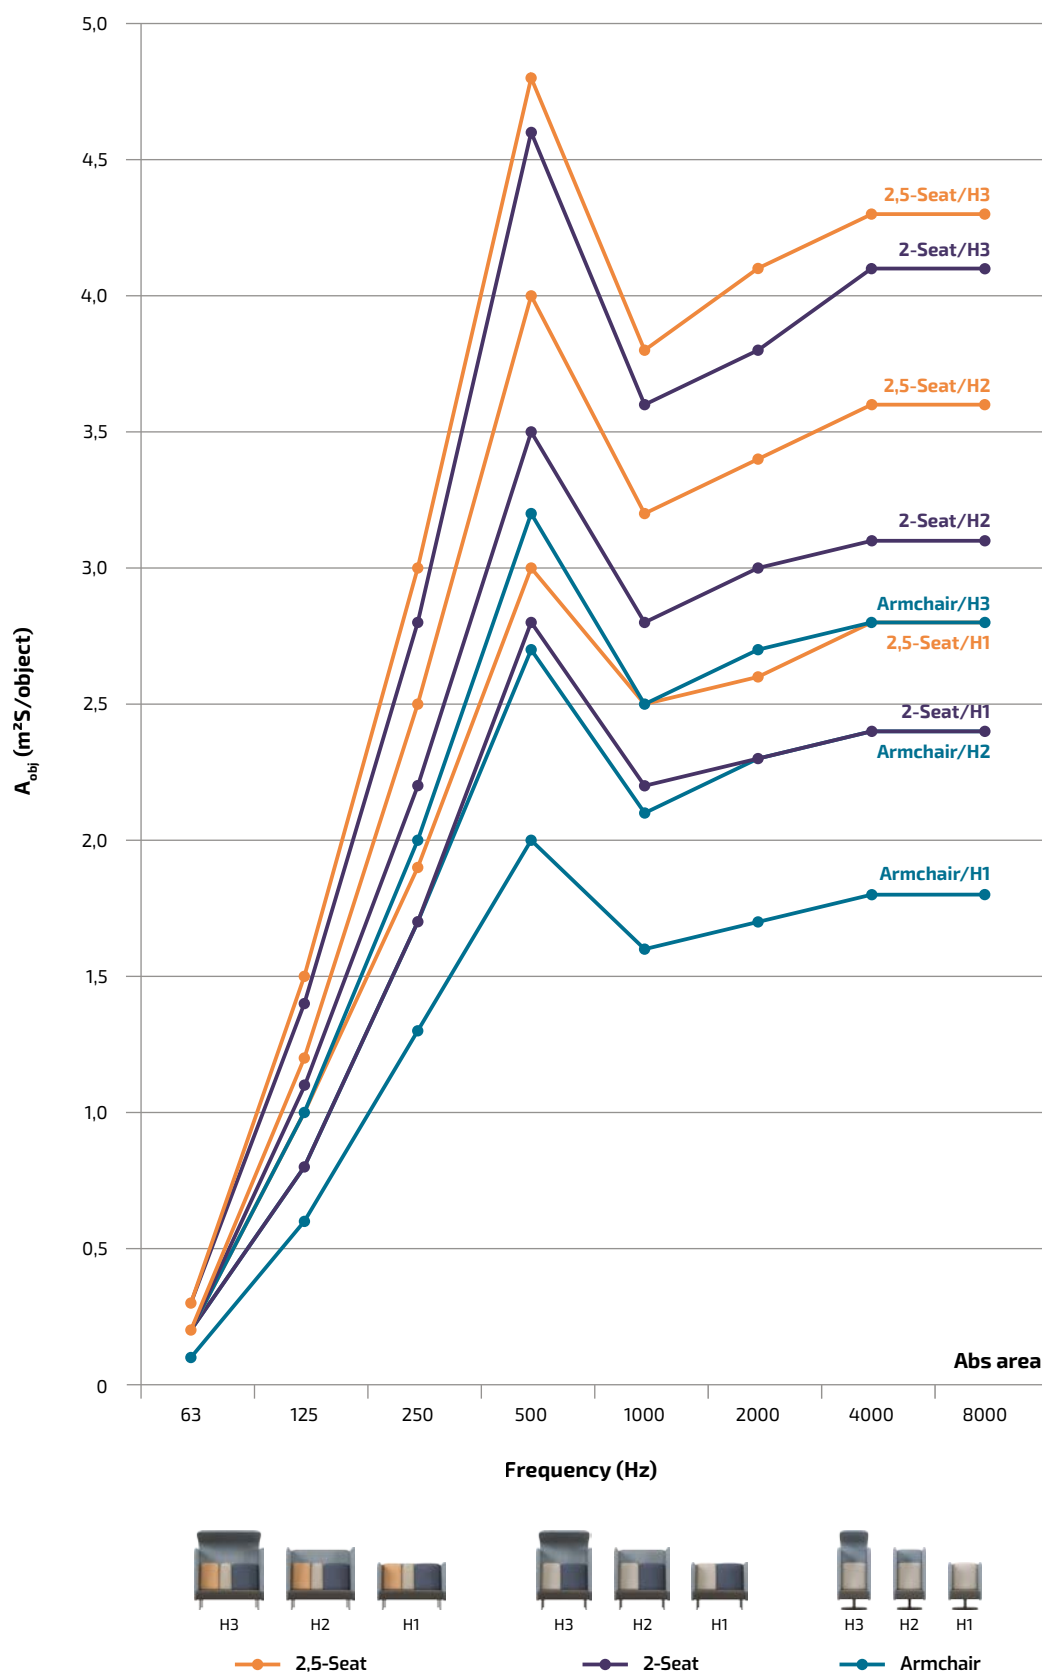

THE AUGUST PRODUCTS ARE RATED
AT THE HIGHEST CLASS A
FOR SOUND ATTENUATION

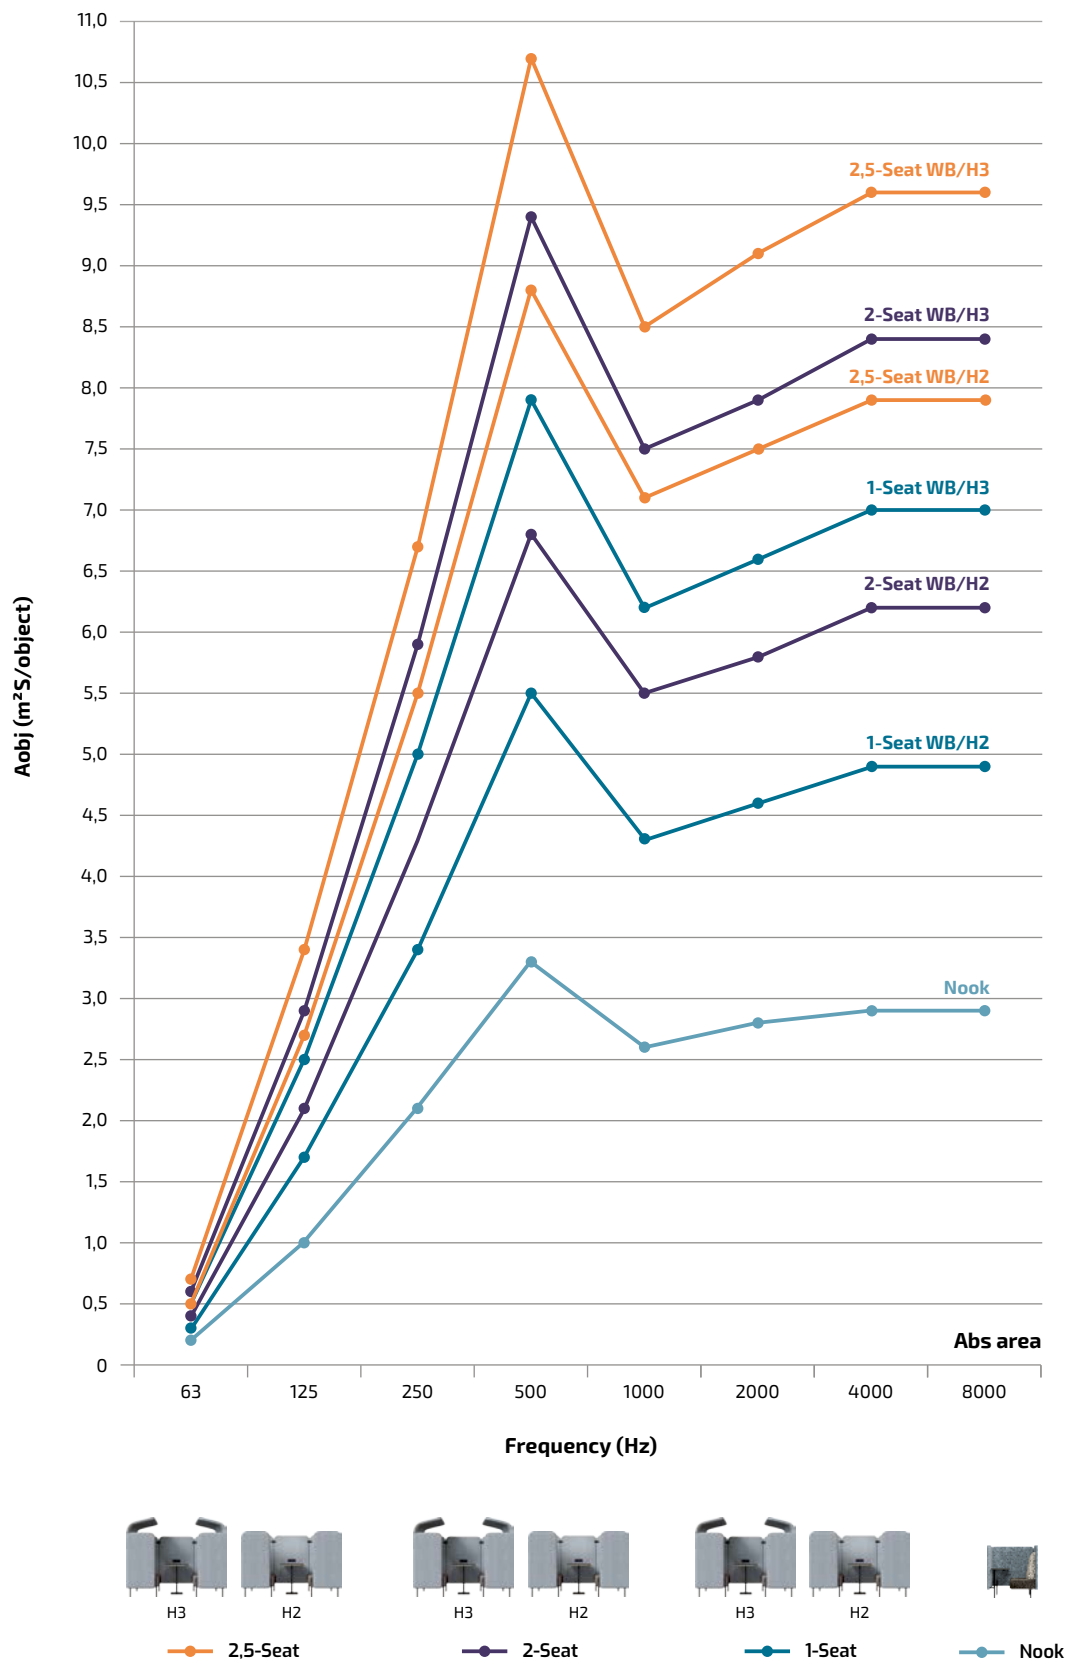

Equivalent absorption area per object ($\text{m}^2\text{Sab} / \text{object}$)

For example, the calculated sound absorption value for the August 2.5-Seat/H3 sofa model is $4.8 \text{ m}^2/\text{sab}$. This is comparable to completely covering an area of 4.8 m^2 with a material that absorbs 100% of sound. In practical terms, one August 2.5-Seat/H3 sofa provides the same noise reduction as about 12-13 sound absorber walls, each 50mm thick and covered with cloth or felt, measuring 600x600 mm.

Equivalent absorption area per object (m²Sab / object)

For example, the calculated sound absorption value for the August Workbay 2.5-Seat/H3 model is 10.7m²/sab. This is comparable to completely covering an area of 10.7 m² with a material that absorbs 100% of sound. In practical terms, one August Workbay 2.5-Seat/H3 provides the same noise reduction as about 29-30 sound absorber walls, each 50mm thick and covered with cloth or felt, measuring 600x600 mm.

August

Available at

PLANNER

Sound-absorbing sofa and armchair

Design: Pent Talvet, Iseasi

The timeless and playful August series ranks among Intuit's TOP 3 popular products. We designed the August range to perfectly address the room acoustics issues which makes it a perfect choice for an intuitive workplace. Get away from the constant distractions, and quieten the noise when it's all too much.

With sound-absorbing walls, August gives you a private oasis within even the noisiest of surroundings, and the different height options make August versatile enough for conversations in your Social Zone, or focused individual work in your Concentration Zone.

August Workbay

Available at
pCon
PLANNER

Sound-absorbing workstation

Design: Pent Talvet, Iseasi

Looking for the perfect spot to have that important conversation? The August sofa set provides an easy solution for creating a workbay where you can go to get some privacy or have meetings. The August Workbay is an integral part of your Concentration Zone, providing an opportunity to step away from the noise, and find the focus you need.

The only thing it takes is to connect two August sofas or armchairs with a partition wall. Sound-absorbing qualities make it easy to carve out a space of peace and quiet within an open-plan office. Distraction-busting high sides with sound-absorbing qualities make it easy to carve out a space of peace and quiet within an open-plan surroundings.

Harles

Soft office sofa

Design: Silver-Harles Haljandi

An office that feels like home creates a sense of warmth and belonging, where everyone feels welcomed and cared for. With its flowing form, Harles conveys this message in an effortless and chic way, with a touch of luxury.

The strength of the Harles sofa lies in its softness. Comfy seat cushions, filled with triple-layer foam, maintain their shape beautifully and make sitting a real pleasure. Designed with curves on all sides, Harles brings a sense of cosiness to any space, while its stylish high legs add an air of elegance. Opt for a seat module with a striking diagonal shape, and the character of Harles truly shines.

Hektor

Playful modular seating system

Design: Lauri Visnapuu

Designed for dynamic public and shared spaces, Hektor is a modular seating system built around soft, hexagonal forms that invite movement, interaction and flexible use. The playful geometry allows organic, non-linear configurations that work equally well as flowing seating landscapes or as individual standalone seats.

Available in three module heights — from low poufs to higher-backed elements — Hektor enables zoning, visual variation and optional privacy within open environments. Its generously upholstered, soft construction makes it comfortable for extended waiting, informal meetings or relaxed social moments.

Ikoon

Compact privacy sofa system

Design: Argo Tamm

Designed for spaces where comfort, privacy and adaptability must coexist within a limited footprint, Ikoon is a compact sofa system that delivers focused seating without overwhelming the room. Its clean geometry and reduced dimensions make it easy to integrate into a wide range of interiors, while softly enclosing sides create a calm, personal seating experience.

Available in two heights, Ikoon supports different levels of interaction — from open, approachable seating to more enclosed use with enhanced visual and acoustic privacy. Integrated side tables provide a convenient surface for laptops or personal items, while optional power outlets — including an optional battery bank solution — enable power access without fixed connections, supporting mobile and laptop use and longer stays. With its compact form and optional castors, Ikoon can be easily repositioned as spaces and activities change.

Kimi

Japandi-inspired, environmentally conscious sofa

Design: Argo Tamm

Inspired by Japandi style, Kimi brings balance, calm and conscious simplicity into the workplace. Its solid wood frame has a restrained, architectural presence, while adding warmth and natural character to the interior.

Thanks to its modular structure, Kimi can be configured into sofa compositions that suit a variety of spaces — from reception areas and lounges to quieter meeting and conversation zones. A practical movable armrest/table is available as an accessory: one side functions as a comfortable support to lean against, while the other provides a solid surface for a coffee cup, laptop or notebook. Decorative cushions can also be added to enhance back support and overall comfort.

One of Intuit's most sustainable sofa solutions

Kimi has been designed in line with **circular economy principles**. Instead of a traditional boxed construction, its frame is based on monomaterials, making the sofa fully recyclable. All upholstery covers are completely removable, allowing for easy maintenance and replacement — extending the product's lifespan and supporting long-term, responsible use.

Lilja

Work sofa

Design: Samuli Naamanka

Transforming public spaces with Nordic elegance. Created in collaboration with Finnish designer Samuli Naamanka, Lilja is a tribute to the harmony and timelessness of Nordic design. Warm and friendly solid wood and elegant lines make up a pleasing piece of furniture that reflects the Nordic attitude to style and quality.

Lilja has flexibility at her heart, allowing you to tailor its setup to suit various spaces and personal tastes. Cherry-pick the armrest combinations. Optional backseat and armrest pillows enhance the comfort, inviting you to sink in and experience its welcoming embrace. Whether it's your office or any public area, Lilja promises to transform ordinary spaces into cozy, inviting environments. Much you value their comfort and wellbeing. Put the finishing touches to your Social Zone with this inviting sofa.

Meeter Gap

Maintenance-smart modular sofa modules

Design: Argo Tamm

Developed as an evolution of Intuit's best-selling Meeter modular sofa series, Meeter Gap is designed to solve one of the most common yet costly challenges in high-traffic environments: difficult cleaning and ongoing maintenance.

Its key innovation lies in the structural gap between the seat cushion and backrest — a purposeful design detail that allows crumbs, debris and dirt to fall directly to the floor instead of accumulating inside the furniture. This significantly simplifies cleaning, speeds up maintenance routines and helps reduce long-term upkeep costs in spaces where furniture is used intensively every day.

Especially suited for dining areas, educational settings, waiting zones and other demanding public interiors, Meeter Gap combines the proven flexibility and modularity of the Meeter family with a practical operational advantage. The result is a seating solution that not only supports layout adaptability and user comfort, but also improves day-to-day efficiency for operators and facility managers.

Node

Modular sofa system

Design: Argo Tamm

Designed for larger public interiors where flexibility, presence and spatial structure must work together, Node is a modular sofa system created to shape central spaces with confidence. Developed as a natural evolution of Intuit's highly versatile Meeter series, Node expands the same core strengths into a larger, more expressive format — offering greater comfort, stronger visual presence and broader planning potential for spacious environments.

With its modular logic, Node allows designers to build straight, curved and expansive seating landscapes that adapt to the scale and rhythm of each project. Available in two heights and multiple straight and rounded modules, Node supports everything from open social interaction to more defined spatial zoning.

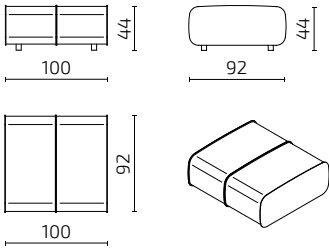

Its larger form makes it particularly well suited for foyers, waiting areas, hospitality spaces, educational hubs and public interiors where furniture must do more than provide seating — it defines the atmosphere and creates purposeful gathering points.

Takt

Complete micro workstation

Design: Lauri Visnapuu

Designed for moments that require focus in shared environments, TAKT is a compact, all-in-one micro workstation that creates a personal work zone wherever it's needed. Combining a comfortable upholstered seat, integrated work surface, lighting and power access within softly enclosing side panels, TAKT supports concentrated work without isolating the user from the surrounding space.

Ideal for modern offices, libraries, educational facilities and public interiors, TAKT offers a flexible solution for work nomads, hybrid employees and visitors who need a quiet place to read, think or work for a short or extended period. Its modular logic allows units to be placed individually or in rhythmic rows, adapting seamlessly to different layouts and space constraints.

PLANNER

Cosy niche sofa

Design: Lauri Visnapuu

When you combine the comfort of a home sofa with the convenience of an office sofa, you get Wander – a cosy niche sofa with high walls that provides visual separation, supports productivity, and can be easily moved around.

With modules available in three different widths, Wander offers a number of interior design options. By placing the modules opposite each other, the result is a cosy nest suitable for a private chat. When complemented with an auxiliary desk, it serves as a functional work island. Equipped with castors, Wander moves with you. Modules arranged in a row are also suitable, for a café, for example.

Wander's soft back cushions are loose and adjustable. In keeping with circular economy design, Wander's coverings are durable and easy to replace, even on your own.

PLANNER

Phonebooth

Design: Iseasi

You need to make a call. But you'd rather the whole office didn't listen in. Booth provides a quiet oasis, so you can focus on your conversation, without distractions.

We saw an opportunity to make the basic phone booth a much more pleasant place to be. If you've spent time in cramped and claustrophobic phone booths before, you'll marvel at how Booth opens up the space. You can be part of the open-plan space, while still having access to the focus and privacy you need at various points of your day. And its rocking and rotating seat gives you room to move, without banging your elbows on the walls every 5 seconds.

Booth harnesses technology and design to provide an intuitive space for your special task. With sound absorbing upholstery and acoustic panels, Booth dampens noise from every direction. Its motion sensor fresh air ventilation system and adjustable LED lighting help you create exactly the environment you work well in. While its wheels mean you can relocate it to anywhere in your office.

Concentration Zone

Enjoy a room that feels bigger on the inside

Find the peace you need

Take calls without disturbing your team

You can swing and turn on your chair, adapting your setup to whatever you need to work on.

Multifunctional table series

Design: Karl Kukk

The Aide table is an indispensable backdrop, designed to complement room layouts and core furniture. The multi-functional table series comprises variations that are tall, low, slender, sturdy, spacious, compact, and offer a combination of features, totalling 6 different versions.

With its timeless and refined appearance, Aide blends into any interior, while maintaining an understated presence, allowing other furniture pieces to take the spotlight. Aide focuses on function adapting to various environments – it can be a coffee table in the lounge area, a dining table in cafes and canteens, or a desk in the work zone. Finding the perfect solution is easy, as Aide can be integrated with the entire Intuit soft furniture range.

Mobile plant divider

Design: Lauri Visnapuu

Transform the office into a lush forest and show your commitment to employee well-being. Grow's flowerpots of three different heights act as smart space dividers, offering a secluded retreat from the endlessness of the open office floor plan. Equipped with 360-degree rotating wheels, these planters allow you to refresh the office landscape with a new floral arrangement at your whim.

For added versatility, Grow absorbs office noise and fosters a tranquil environment for the team. Alternatively, choose a multifunctional design featuring a spacious shelf on one side, blending utility with natural beauty.

Hover

Available at
pCon
PLANNER

Leaning wall

Design: Karl Kukk

Sometimes, there's not enough space for a comfortable sofa, but you still want to make waiting comfortable. The day is saved by the soft leaning wall Hover, which you can lean on to pass the time alone or chatting with a companion.

Hover is brilliantly space-saving and fits perfectly in places where you might need to stand, such as at the airport, in a corridor, or behind a meeting room door. Placed in the office kitchen or in an

in-between space, it provides a convenient spot for exchanging ideas with a colleague on the go. Hover is available as a module in four different sizes. By adding a coffee table and a power socket, you can even get work done while leaning. Quickly installable and featuring easily replaceable fabric, Hover also offers noise-dampening properties thanks to its foam and perforated inner panel. Hover is designed for disassembly fully embracing the principles of circular design.

Welcome Zone

SAMPLE COMBINATIONS

Mobile whiteboard

Design: Lauri Visnapuu

Make room for big ideas. Use our convenient mobile whiteboard to utilise every brainstorming opportunity. Equipped with 360-degree wheels, you can take the whiteboard wherever fresh ideas are born.

The back of the whiteboard is optionally covered with cutting-edge acoustic felt. Given its sound-absorbing qualities and notable height, the board can be transformed into a privacy screen, showcasing our love for multifunctional furniture.

pCon
PLANNER

Mobile room divider

Design: Lauri Visnapuu

Shape your world the way you want it. Use this mobile room divider to create a separate space in an open office exactly where you need it. Equipped with 360-degree rotating wheels, it moves easily to the work rhythm of your team.

Silent Note belongs to the Note product family and comes covered with fabric on both sides, offering unlimited possibilities for its unique design. To increase the sound absorbing properties, we recommend using an acoustic felt as a cover.

Planter room divider

Design: Lauri Visnapuu

Character lies in the details. The small, seemingly insignificant elements that give a space its unique identity. The best details don't just enhance aesthetics – they add value!

The Oaas decorative room divider is a stylish and functional backdrop that brightens any room, regardless of size. Its elegant round modules can stand alone or be connected to form 'walls', creating purposeful zones within a space. Designed with practicality in mind, Oaas features a surface perfect for displaying plants or decorative objects. Plus, its fabric-covered outer wall improves acoustics by absorbing echoes.

Sound-absorbing screen

Design: Pent Talvet, Iseasi

The office of the future is agile and flexible. When you need to change the use of a space without knocking down walls, then you need Sigmund. This ingenious sound-absorbing screen can make any area feel like a private office.

Create a smaller Collaboration Zone within an open-plan space, or curate an enclosed seating area. Wherever the flow of your workplace, Sigmund can help you intuitively meet the needs of your team. Without having to don a hard hat.

Sprout

Available at
pCon
PLANNER

Mobile plant divider

Design: Lauri Visnapuu

Adding greenery to a space enhances overall wellbeing and helps boost productivity. Use the practical Sprout space divider, which lets you grow suitable plants right inside it.

Sprout is ideal for making any space more visually appealing and cosy. Use it to define work areas or leave it in communal spaces for flexible use – Sprout's wheels make it easy to move it around. Sprout is precisely sized to fit between two opposite-facing desks, covering the full span of both workstations and providing privacy. It comes in two heights with three different top surfaces. The fabric-covered exterior adds character and improves room acoustics.

DIFFERENT SURFACES

NARROW SURFACE

The most compact option. With minimal surface space around the planting area, this version is perfect for use in narrow corridors and passageways.

EXTENDED SURFACE

The medium-width surface surrounding the planting area is complemented by an extra surface. It can be used for seating or storing work equipment. Suitable for both open areas and between desks.

MEDIUM-WIDTH SURFACE

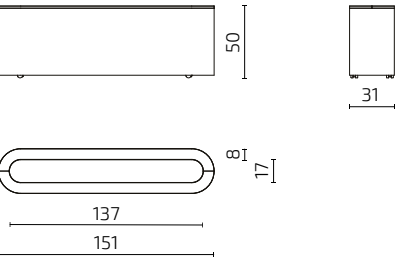

The planting area is bordered by a medium-width surface – ideal for resting small items like a coffee cup. Suitable for placement in the centre of a room, where it creates visual separation.

STANDARD FABRIC COLLECTION: A SYMPHONY OF DESIGN, DURABILITY AND SUSTAINABILITY

At Intuit by Softrend, we understand that the right fabric can transform a piece of furniture from merely functional to truly exceptional. That's why we offer an extensive Standard Fabric Collection, featuring over 1,000 high-quality fabrics sourced from renowned international suppliers including Camira, Kvadrat, Gabriel, and others. Each fabric is carefully selected to ensure it meets the rigorous demands of public spaces, with superior durability and compliance with flame and/or fire resistance standards.

Our collection is meticulously curated to cater to diverse tastes and budgets, organized into five distinct price categories. This structured assortment ensures that whether you're seeking luxury or affordability, you'll find fabrics that do not compromise on quality or style.

For those who desire a personal touch, we offer the flexibility to upholster your chosen furniture with your own material, allowing for a truly customized interior experience.

We are committed to sustainability; the majority of our fabrics bear the Oeko-Tex or Ecolabel certifications and/or are made from recycled materials, reflecting our dedication to environmental responsibility. Our annual update of the fabric selection not only aligns with the latest trends but also retains beloved classics that have stood the test of time.

Discover fabrics ranging from rich wools and sleek artificial leathers to soft felts, most backed by a 10-year manufacturer's warranty. The Intuit by Softrend Standard Fabric Collection is designed not just to meet, but to exceed the functional and aesthetic needs of any space.
