

Meeter Gap

Maintenance-smart modular sofa modules

Design: Argo Tamm

Developed as an evolution of Intuit's best-selling Meeter modular sofa series, Meeter Gap is designed to solve one of the most common yet costly challenges in high-traffic environments: difficult cleaning and ongoing maintenance.

Its key innovation lies in the structural gap between the seat cushion and backrest — a purposeful design detail that allows crumbs, debris and dirt to fall directly to the floor instead of accumulating inside the furniture. This significantly simplifies cleaning, speeds up maintenance routines and helps reduce long-term upkeep costs in spaces where furniture is used intensively every day.

Especially suited for dining areas, educational settings, waiting zones and other demanding public interiors, Meeter Gap combines the proven flexibility and modularity of the Meeter family with a practical operational advantage. The result is a seating solution that not only supports layout adaptability and user comfort, but also improves day-to-day efficiency for operators and facility managers.
